CHAPTER 372 PROVISION OF SERVICES

§372.1. Provision of Services.

(a) Medical Conditions.

(1) Occupational therapists may evaluate the client to determine the need for occupational therapy services without a referral. However, a referral must be requested at any time during the evaluation process when necessary to ensure the safety and welfare of the client.

(2) Intervention for a medical condition by an occupational therapy practitioner requires a referral from a licensed referral source.

(b) Non-Medical Conditions. The evaluation or intervention for a non-medical condition does not require a referral. However, a referral must be requested at any time during the evaluation or intervention process when necessary to ensure the safety and welfare of the client.

(c) Methods of Referral/Plan of Care documentation. The referral or signed plan of care must be from a licensed referral source in accordance with the Practice Act, §454.213 (relating to Accepted Practice; Practitioner's Referral), and may be transmitted in the following ways:

(1) by a written document, including paper or electronic information/communications technologies;

(2) verbally, either in person or by electronic information/communications technologies. If a referral is transmitted verbally, it must be documented by the authorized personnel who receives the referral. In this section, "authorized personnel" means staff members authorized by the employer or occupational therapist to receive referrals transmitted verbally; or

(3) by an occupational therapy plan of care, developed according to the requirements of this section, that is signed by the licensed referral source.

(d) Screening, Consultation, and Monitored Services. A screening, consultation, or monitored services may be performed by an occupational therapy practitioner without a referral.

(e) Evaluation.

(1) Only an occupational therapist may perform an initial evaluation or any re-evaluations.

(2) An occupational therapy plan of care must be based on an occupational therapy evaluation.

(3) The occupational therapist is responsible for determining whether any aspect of the evaluation may be conducted via telehealth or must be conducted in person.

(4) The occupational therapist must have contact with the client during the evaluation via telehealth using synchronous audiovisual technology or in person. Other

telecommunications or information technology may be used to aid in the evaluation but may not be the primary means of contact or communication.

(5) The occupational therapist may delegate to an occupational therapy assistant the collection of data for the evaluation. The occupational therapist is responsible for the accuracy of the data collected by the occupational therapy assistant.

(f) Plan of Care.

(1) Only an occupational therapist may initiate, develop, modify or complete an occupational therapy plan of care. It is a violation of the OT Practice Act for anyone other than the occupational therapist to dictate, or attempt to dictate, when occupational therapy services should or should not be provided, the nature and frequency of services that are provided, when the client should be discharged, or any other aspect of the provision of occupational therapy as set out in the OT Act and Rules.

(2) Modifications to the plan of care must be documented.

(3) An occupational therapy plan of care may be integrated into an interdisciplinary plan of care, but the occupational therapy goals or objectives must be easily identifiable in the plan of care.

(4) Only occupational therapy practitioners may implement the written plan of care once it is completed by the occupational therapist.

(5) Only the occupational therapy practitioner may train non-licensed personnel or family members to carry out specific tasks that support the occupational therapy plan of care.

(6) The occupational therapist is responsible for determining whether intervention is needed and if a referral is required for occupational therapy intervention.

(7) Except where otherwise restricted by rule, the occupational therapy practitioner is responsible for determining whether any aspect of the intervention session may be conducted via telehealth or must be conducted in person.

(8) The occupational therapy practitioners must have contact with the client during the intervention session via telehealth using synchronous audiovisual technology or in person. Other telecommunications or information technology may be used to aid in the intervention session but may not be the primary means of contact or communication.

(9) Devices that are in sustained skin contact with the client (including but not limited to wheelchair positioning devices, splints, hot/cold packs, or therapeutic tape) require the on-site and attending presence of the occupational therapy practitioner for any initial applications. The occupational therapy practitioner is responsible for determining the need to be on-site and attending for subsequent applications or modifications.

(10) Except where otherwise restricted by rule, the supervising occupational therapist may only delegate to an occupational therapy assistant tasks that they both agree are within the competency level of that occupational therapy assistant.

(g) Documentation.

(1) The client's records include the medical referral, if required, and the plan of care. The plan of care includes the initial evaluation; the goals and any updates or change of the goals; the documentation of each intervention session by the OT or OTA providing the service; progress notes and any re-evaluations, if required; any patient related documents; and the discharge or discontinuation of occupational therapy services documentation.

(2) The licensee providing occupational therapy services must document for each intervention session. The documentation must accurately reflect the intervention, decline of intervention, and/or modalities provided.

(3) In each intervention note, the occupational therapy assistant must include the name of an occupational therapist who is readily available to answer questions about the client's intervention at the time of the provision of services. The occupational therapist in the intervention note may be different from the occupational therapist who wrote the plan of care. The occupational therapy assistant may not provide services unless this requirement is met.

(h) Discharge or Discontinuation of Occupational Therapy Services.

(1) Only an occupational therapist has the authority to discharge clients from occupational therapy services. The discharge or discontinuation of occupational therapy services is based on whether the client has achieved predetermined goals, has achieved maximum benefit from occupational therapy services, or when other circumstances warrant discontinuation of occupational therapy services.

(2) The occupational therapist must review any information from the occupational therapy assistant(s), determine if goals were met or not, complete and sign the discharge or discontinuation of occupational therapy services documentation, and/or make recommendations for any further needs of the client in another continuum of care.

§372.2. General Purpose Occupation-Based Instruction.

(a) Occupational therapy practitioners may develop or facilitate general purpose, occupation-based groups or classes including but not limited to handwriting groups, parent-child education classes, wellness-focused activities for facility residents, aquatics exercise groups, and cooking for diabetics classes.

(b) These services do not require individualized evaluation and plan of care services but practitioners may develop goals or curriculums for the group as a whole. If a participant requires

individualized occupational therapy services, these may only be provided in accordance with §372.1 of this title (relating to Provision of Services).

(c) When general purpose occupation-based instruction is being provided pursuant to §372.2, the OT must approve the curricular goals/program prior to the OTA's initiating instruction.

CHAPTER 373 SUPERVISION

§373.1. Supervision of Non-Licensed Personnel.

- (a) Occupational Therapists are fully responsible for the planning and delivery of occupational therapy services. They may use non-licensed personnel to extend their services; however, the non-licensed personnel must be under the supervision of an occupational therapy practitioner.
- (b) Supervision in this section for occupational therapy aides as defined by the Practice Act, §454.002 (relating to Definitions), is on-site contact whereby the supervising occupational therapy practitioner is able to respond immediately to the needs of the client.
- (c) Supervision of other non-licensed personnel either on-site or via telehealth requires that the occupational therapy practitioner maintain line of sight.
- (d) When occupational therapy practitioners delegate occupational therapy tasks to non-licensed personnel, the occupational therapy practitioners are responsible for ensuring that this person is adequately trained in the tasks delegated.
- (e) The occupational therapy practitioners providing the intervention must interact with the client regarding the client's condition, progress, and/or achievement of goals during each intervention session.
- (f) Delegation of tasks to non-licensed personnel includes but is not limited to:

 - (2) transportation of clients;

- (g) The Non-Licensed Personnel may not:
- (1) perform occupational therapy evaluative procedures;
 - (2) initiate, plan, adjust, or modify occupational therapy procedures;
 - (3) act on behalf of the occupational therapist in any matter relating to occupational therapy which requires decision making or professional judgments;
 - (4) write or sign occupational therapy documents in the permanent record. However, non-licensed personnel may record quantitative data for tasks delegated by the supervising occupational therapy practitioner. Any documentation reflecting activities by

non-licensed personnel must identify the name and title of that person and the name of the supervising occupational therapy practitioner.

(b) Filing and receipt of complaints.

(1) Complaints may be received in writing. Complainants shall be invited to explain their allegations. The staff will provide reasonable assistance to a person who wishes to file a complaint. Anonymous complaints will be accepted, but it is understood that the lack of a witness or the ability to secure additional information from the anonymous complainant may result in the board's inability to secure sufficient evidence to pursue action against the alleged violator.

(2) When a complaint is received, the board shall notify the parties to the complaint of the status of the complaint, unless the notice would jeopardize an undercover investigation. The board shall notify the parties to the complaint at least as frequently as quarterly until there is final disposition of the complaint, in accordance with the Act, §454.152.

(3) Not later than the tenth calendar day after a complaint is received, the staff shall place a timeline for completion of the investigation in the file and notify all parties to the complaint. Any change in the timeline must be noted in the file and all parties notified of the change not later than seven calendar days after the change was made. For purposes of this rule, completion of an investigation in a disciplinary matter occurs when:

(A) staff determines there is insufficient evidence to demonstrate a violation of the Act, board rules, or a board order; or

(B) staff determines that there is sufficient evidence to demonstrate a violation of the Act, board rules, or a board order and drafts proposed formal charges.

(4) The staff shall provide summary data of complaints extending beyond the complaint timeline to the coordinator and the executive director who will then notify the board at a regularly scheduled meeting.

(5) The board shall keep an information file on each complaint submitted to the board. The file will be kept current and include a record of all persons contacted in relation to the complaint, notes about the findings throughout the complaint process, and other relevant information.

(6) The Investigation Committee may determine when and if a private investigator is needed for processing of a complaint.

(7) Complaints shall be assigned a priority status in the following categories:

(A) Those indicating that credible evidence exists showing a violation of the Occupational Therapy Practice Act involving actual deception, fraud, or injury to

clients or the public or a high probability of immediate deception, fraud, or injury to clients or the public.

(B) Those indicating that credible evidence exists showing a violation of the Occupational Therapy Practice Act involving a high probability of potential deception, fraud, or injury to clients or the public.

(C) Those indicating that credible evidence exists showing a violation of the Occupational Therapy Practice Act involving a potential for deception, fraud, or injury to clients or the public.

(D) All other complaints.

(c) The Executive Director and the Investigation Committee will take appropriate action to investigate the complaint or take other appropriate action.

(1) The Investigation Committee will hold meetings, at least quarterly, to review complaints, to determine if there is sufficient evidence to substantiate the allegations, to hold informal conferences, to identify appropriate discipline for violations, and to make recommendations for disciplinary action to the board.

(2) The Investigation Committee reviews the evidence that has been submitted and gathered by the investigator and, typically makes one of the following determinations:

(A) The scope of the complaint is beyond the authority of the board and possibly may be handled by another entity. The committee may refer the complainant to an appropriate entity.

(B) There is insufficient evidence to substantiate that a violation of the Act or rules has occurred, thus closing the investigation.

(C) Evidence indicates a possible violation did occur and further investigation is needed.

(D) Evidence indicates a violation did occur and disciplinary action is not warranted.

(E) Evidence indicates a violation did occur and disciplinary action is warranted.

(1) Prior to commencing disciplinary proceedings, the staff shall serve the respondent with written notice in accordance with the Texas Government Code, §2001.54(c).

(2) Such notice shall contain a statement of the facts or conduct alleged to warrant an adverse action. The notice shall invite the respondent to show compliance with all requirements of the law for retention of the license.

(3) The respondent shall have not less than ten calendar days to respond in writing.

(e) Agreed orders.

- (1) An agreed order is a legal document and the formal means by which a respondent accepts the disciplinary action imposed by the board. To be a valid document it must be approved by the board and signed by both the respondent and the chair of the board.
- (2) An agreed order may be negotiated with any person under the jurisdiction of the board, the terms of which shall be approved by the Investigation Committee.
- (3) The agreed order will be sent to the respondent by certified mail. To accept the agreed order, the respondent must sign it in the presence of a notary and return it to the board within ten calendar days after receipt. Inaction by the respondent constitutes rejection. If the respondent rejects the proposed settlement, the matter shall be referred to the Investigation Committee for appropriate action.
- (4) The agreed order with the notarized signature of the respondent will be presented to the board. The proposed agreed order shall have no effect until such time as the board may, at a scheduled meeting, take action approving the agreed order. The agreed order will include a provision requiring the respondent reimburse the board for all investigative expenses.
- (5) The respondent shall be notified of the date, time, and place of the board meeting at which the proposed agreed order will be considered. Attendance by the respondent is voluntary.
- (6) Consideration by the board will include the following:
 - (A) Any board member who participated in the investigation of the complaint or formulation of the proposed agreed order may not vote on the agreed order.
 - (B) The respondent's identity will not be made available to the board until after the board has reviewed and made a decision on the agreed order.
 - (C) Upon an affirmative majority vote, the board shall authorize the agreed order, and the chair of the board will sign it. The board-approved agreed order will be provided to the respondent. A copy of the order will then be placed in the licensee's permanent file.
 - (D) If the board does not approve the agreed order, the matter will be referred to the Investigation Committee or the Executive Director for other appropriate action. The respondent and the complainant shall be so informed.

(3) On a quarterly basis, the board is provided with a list of the complaints that were dismissed and the reasons for the dismissals.

(4) At least annually the board will advise the Executive Council of complaints which have been disposed.

(g) Informal conference.

(1) At any time after the filing of a complaint, an informal conference may be held prior to the contested case hearing for one or more of the following purposes:

(A) Clarifying the issues;

(B) Considering proposed admissions or stipulations of fact;

(C) Reviewing the procedure to govern the contested case hearing;

(D) Exchanging witness lists and agreeing to limit the number of witnesses;
and/or

(E) Doing any act that may simplify the proceedings, and dispose of matters in controversy, including settlement of issues in dispute and preparation of an agreed order for presentation to the board as provided herein.

(2) A respondent may request an informal settlement conference; however, the decision to hold a conference shall be made by the Executive Director or the Investigation Committee.

(3) Participation in an informal conference shall not be mandatory for the licensee or applicant, nor is it a prerequisite to a formal hearing.

(4) The Executive Director shall decide upon the time, date, and place of the settlement conference and provide written notice to the respondent of the same. Notice shall be provided no less than ten calendar days prior to the date of the conference by certified mail, return receipt requested to the last known address of the respondent. The ten days shall begin on the date of certified mailing. The respondent may waive the ten-day notice requirement.

(B) A copy of the board's rules concerning informal disposition shall be enclosed with the notice of the settlement conference.

(5) The notice of the settlement conference shall be sent by certified mail, return receipt requested, to the complainant's last known address. The complainant shall be informed that he or she may appear and testify or may submit a written statement for consideration at the settlement conference. The complainant shall be notified if the conference is canceled.

(6) Participants in the informal conference may include a board member, agency staff, the complainant, the respondent, attorneys representing any of the participants, and any other persons determined by the Investigation Committee or the Executive Director to be necessary for proper conduct of the conference. All other persons may be excluded.

(7) The settlement conference shall be informal and shall not follow the procedures established in this chapter for contested cases and formal hearings.

(8) The respondent, the respondent's attorney, a board member, and board staff may question witnesses, make relevant statements, present statements of persons not in attendance, and present such other evidence as may be appropriate.

(9) An attorney from the Office of the Attorney General shall attend each settlement conference. The board member or Executive Director may call upon the attorney at any time for assistance in the settlement conference.

(10) The respondent shall be afforded the opportunity to make statements on his or her own behalf.

(12) No formal recording of the settlement conference shall be made.

(13) At the conclusion of the settlement conference, the board member or the Executive Director may make recommendations for informal disposition of the complaint or contested case. The recommendations may include any disciplinary action authorized by the Occupational Therapy Practice Act. The board member or the Executive Director may also conclude that the board lacks jurisdiction, that a violation of the Act or this

chapter has not been established, order that the investigation be closed, or refer the matter for further investigation.

(h) The board follows the Administrative Procedure Act (APA), Texas Government Code, Chapter 2001, for resolution of complaints as a contested case. A copy of the APA procedures may be obtained from the board.

(i) Should the recommendation for an informal disposition not be accepted by the respondent, the complaint shall be referred back to the Investigation Committee for appropriate action. The committee shall determine if the case should be referred to the State Office of Administrative Hearings (SOAH) or dismissed for insufficient evidence or other reasons justifying a dismissal.

(j) If the Investigation Committee determines that a violation has occurred and the respondent is not under the jurisdiction of the board, the committee has the option of referring the case to the appropriate authority: district attorney, county attorney, etc.

§374.4. Code of Ethics.

(a) The Texas Board of Occupational Therapy Examiners' Code of Ethics is a public statement of the principles and related standards of conduct used in promoting and maintaining high standards of behavior in occupational therapy within the state of Texas. The Code of Ethics is a set of principles and standards that applies to occupational therapy practitioners. ("Practitioners" in this section are defined as those individuals licensed by this Board or applicants for licensure with this Board.)

(b) Principles and Related Standards of Conduct:

Principles and Related Standards of Conduct

The principles and related standards of conduct that follow are from the Occupational Therapy Code of Ethics (2015), by the American Occupational Therapy Association, as published in *American Journal of Occupational Therapy*, 69, 6913410030p1-6913410030p8. <http://dx.doi.org/10.5014/ajot.2015.696S03>.

Beneficence

Principle 1. Occupational therapy personnel shall demonstrate a concern for the well-being and safety of the recipients of their services.

Beneficence includes all forms of action intended to benefit other persons. The term *beneficence* connotes acts of mercy, kindness, and charity (Beauchamp & Childress, 2013). Beneficence requires taking action by helping others, in other words, by promoting good, by preventing harm, and by removing harm. Examples of beneficence include protecting and

defending the rights of others, preventing harm from occurring to others, removing conditions that will cause harm to others, helping persons with disabilities, and rescuing persons in danger (Beauchamp & Childress, 2013).

Related Standards of Conduct

Occupational therapy personnel shall

- A. Provide appropriate evaluation and a plan of intervention for recipients of occupational therapy services specific to their needs.
- B. Reevaluate and reassess recipients of service in a timely manner to determine whether goals are being achieved and whether intervention plans should be revised.
- C. Use, to the extent possible, evaluation, planning, intervention techniques, assessments, and therapeutic equipment that are evidence based, current, and within the recognized scope of occupational therapy practice.
- D. Ensure that all duties delegated to other occupational therapy personnel are congruent with credentials, qualifications, experience, competency, and scope of practice with respect to service delivery, supervision, fieldwork education, and research.
- E. Provide occupational therapy services, including education and training, that are within each practitioner's level of competence and scope of practice.
- F. Take steps (e.g., continuing education, research, supervision, training) to ensure proficiency, use careful judgment, and weigh potential for harm when generally recognized standards do not exist in emerging technology or areas of practice.
- G. Maintain competency by ongoing participation in education relevant to one's practice area.
- H. Terminate occupational therapy services in collaboration with the service recipient or responsible party when the services are no longer beneficial.
- I. Refer to other providers when indicated by the needs of the client.
- J. Conduct and disseminate research in accordance with currently accepted ethical guidelines and standards for the protection of research participants, including determination of potential risks and benefits.

Nonmaleficence

Principle 2. Occupational therapy personnel shall refrain from actions that cause harm.

Nonmaleficence “obligates us to abstain from causing harm to others” (Beauchamp & Childress, 2013, p. 150). The Principle of *Nonmaleficence* also includes an obligation to not impose risks of harm even if the potential risk is without malicious or harmful intent. This Principle often is examined under the context of due care. The standard of *due care* “requires

that the goals pursued justify the risks that must be imposed to achieve those goals” (Beauchamp & Childress, 2013, p. 154). For example, in occupational therapy practice, this standard applies to situations in which the client might feel pain from a treatment intervention; however, the acute pain is justified by potential longitudinal, evidence-based benefits of the treatment.

Related Standards of Conduct

Occupational therapy personnel shall

- A. Avoid inflicting harm or injury to recipients of occupational therapy services, students, research participants, or employees.
- B. Avoid abandoning the service recipient by facilitating appropriate transitions when unable to provide services for any reason.
- C. Recognize and take appropriate action to remedy personal problems and limitations that might cause harm to recipients of service, colleagues, students, research participants, or others.
- D. Avoid any undue influences that may impair practice and compromise the ability to safely and competently provide occupational therapy services, education, or research.
- E. Address impaired practice and when necessary report to the appropriate authorities.
- F. Avoid dual relationships, conflicts of interest, and situations in which a practitioner, educator, student, researcher, or employer is unable to maintain clear professional boundaries or objectivity.
- G. Avoid engaging in sexual activity with a recipient of service, including the client’s family or significant other, student, research participant, or employee, while a professional relationship exists.
- H. Avoid compromising rights or well-being of others based on arbitrary directives (e.g., unrealistic productivity expectations, falsification of documentation, inaccurate coding) by exercising professional judgment and critical analysis.
- I. Avoid exploiting any relationship established as an occupational therapy clinician, educator, or researcher to further one’s own physical, emotional, financial, political, or business interests at the expense of recipients of services, students, research participants, employees, or colleagues.
- J. Avoid bartering for services when there is the potential for exploitation and conflict of interest.

Autonomy

Principle 3. Occupational therapy personnel shall respect the right of the individual to self-determination, privacy, confidentiality, and consent.

The Principle of *Autonomy* expresses the concept that practitioners have a duty to treat the client according to the client’s desires, within the bounds of accepted standards of care, and to

protect the client's confidential information. Often, respect for Autonomy is referred to as the *self-determination principle*. However, respecting a person's autonomy goes beyond acknowledging an individual as a mere agent and also acknowledges a person's right "to hold views, to make choices, and to take actions based on [his or her] values and beliefs" (Beauchamp & Childress, 2013, p. 106). Individuals have the right to make a determination regarding care decisions that directly affect their lives. In the event that a person lacks decision-making capacity, his or her autonomy should be respected through involvement of an authorized agent or surrogate decision maker.

Related Standards of Conduct

Occupational therapy personnel shall

- A. Respect and honor the expressed wishes of recipients of service.
- B. Fully disclose the benefits, risks, and potential outcomes of any intervention; the personnel who will be providing the intervention; and any reasonable alternatives to the proposed intervention.
- C. Obtain consent after disclosing appropriate information and answering any questions posed by the recipient of service or research participant to ensure voluntariness.
- D. Establish a collaborative relationship with recipients of service and relevant stakeholders, to promote shared decision making.
- E. Respect the client's right to refuse occupational therapy services temporarily or permanently, even when that refusal has potential to result in poor outcomes.
- F. Refrain from threatening, coercing, or deceiving clients to promote compliance with occupational therapy recommendations.
- G. Respect a research participant's right to withdraw from a research study without penalty.
- H. Maintain the confidentiality of all verbal, written, electronic, augmentative, and nonverbal communications, in compliance with applicable laws, including all aspects of privacy laws and exceptions thereto (e.g., Health Insurance Portability and Accountability Act, Family Educational Rights and Privacy Act).
- I. Display responsible conduct and discretion when engaging in social networking, including but not limited to refraining from posting protected health information.
- J. Facilitate comprehension and address barriers to communication (e.g., aphasia; differences in language, literacy, culture) with the recipient of service (or responsible party), student, or research participant.

Justice

Principle 4. Occupational therapy personnel shall promote fairness and objectivity in the provision of occupational therapy services.

The Principle of *Justice* relates to the fair, equitable, and appropriate treatment of persons (Beauchamp & Childress, 2013). Occupational therapy personnel should relate in a respectful, fair, and impartial manner to individuals and groups with whom they interact. They should also respect the applicable laws and standards related to their area of practice. Justice requires the impartial consideration and consistent following of rules to generate unbiased decisions and promote fairness. As occupational therapy personnel, we work to uphold a society in which all individuals have an equitable opportunity to achieve occupational engagement as an essential component of their life.

Related Standards of Conduct

Occupational therapy personnel shall

- A. Respond to requests for occupational therapy services (e.g., a referral) in a timely manner as determined by law, regulation, or policy.
- B. Assist those in need of occupational therapy services to secure access through available means.
- C. Address barriers in access to occupational therapy services by offering or referring clients to financial aid, charity care, or pro bono services within the parameters of organizational policies.
- D. Advocate for changes to systems and policies that are discriminatory or unfairly limit or prevent access to occupational therapy services.
- E. Maintain awareness of current laws and AOTA policies and Official Documents that apply to the profession of occupational therapy.
- F. Inform employers, employees, colleagues, students, and researchers of applicable policies, laws, and Official Documents.
- G. Hold requisite credentials for the occupational therapy services they provide in academic, research, physical, or virtual work settings.
- H. Provide appropriate supervision in accordance with AOTA Official Documents and relevant laws, regulations, policies, procedures, standards, and guidelines.
- I. Obtain all necessary approvals prior to initiating research activities.
- J. Refrain from accepting gifts that would unduly influence the therapeutic relationship or have the potential to blur professional boundaries, and adhere to employer policies when offered gifts.
- K. Report to appropriate authorities any acts in practice, education, and research that are unethical or illegal.
- L. Collaborate with employers to formulate policies and procedures in compliance with legal, regulatory, and ethical standards and work to resolve any conflicts or inconsistencies.
- M. Bill and collect fees legally and justly in a manner that is fair, reasonable, and commensurate with services delivered.

- N. Ensure compliance with relevant laws and promote transparency when participating in a business arrangement as owner, stockholder, partner, or employee.
- O. Ensure that documentation for reimbursement purposes is done in accordance with applicable laws, guidelines, and regulations.
- P. Refrain from participating in any action resulting in unauthorized access to educational content or exams (including but not limited to sharing test questions, unauthorized use of or access to content or codes, or selling access or authorization codes).

Veracity

Principle 5. Occupational therapy personnel shall provide comprehensive, accurate, and objective information when representing the profession.

Veracity is based on the virtues of truthfulness, candor, and honesty. The Principle of *Veracity* refers to comprehensive, accurate, and objective transmission of information and includes fostering understanding of such information (Beauchamp & Childress, 2013). Veracity is based on respect owed to others, including but not limited to recipients of service, colleagues, students, researchers, and research participants.

In communicating with others, occupational therapy personnel implicitly promise to be truthful and not deceptive. When entering into a therapeutic or research relationship, the recipient of service or research participant has a right to accurate information. In addition, transmission of information is incomplete without also ensuring that the recipient or participant understands the information provided.

Concepts of veracity must be carefully balanced with other potentially competing ethical principles, cultural beliefs, and organizational policies. Veracity ultimately is valued as a means to establish trust and strengthen professional relationships. Therefore, adherence to the Principle of Veracity also requires thoughtful analysis of how full disclosure of information may affect outcomes.

Related Standards of Conduct

Occupational therapy personnel shall

- A. Represent credentials, qualifications, education, experience, training, roles, duties, competence, contributions, and findings accurately in all forms of communication.
- B. Refrain from using or participating in the use of any form of communication that contains false, fraudulent, deceptive, misleading, or unfair statements or claims.
- C. Record and report in an accurate and timely manner and in accordance with applicable regulations all information related to professional or academic documentation and activities.
- D. Identify and fully disclose to all appropriate persons errors or adverse events that compromise the safety of service recipients.

- E. Ensure that all marketing and advertising are truthful, accurate, and carefully presented to avoid misleading recipients of service, research participants, or the public.
- F. Describe the type and duration of occupational therapy services accurately in professional contracts, including the duties and responsibilities of all involved parties.
- G. Be honest, fair, accurate, respectful, and timely in gathering and reporting fact-based information regarding employee job performance and student performance.
- H. Give credit and recognition when using the ideas and work of others in written, oral, or electronic media (i.e., do not plagiarize).
- I. Provide students with access to accurate information regarding educational requirements and academic policies and procedures relative to the occupational therapy program or educational institution.
- J. Maintain privacy and truthfulness when utilizing telecommunication in delivery of occupational therapy services.

Fidelity

Principle 6. Occupational therapy personnel shall treat clients, colleagues, and other professionals with respect, fairness, discretion, and integrity.

The Principle of *Fidelity* comes from the Latin root *fidelis*, meaning loyal. *Fidelity* refers to the duty one has to keep a commitment once it is made (Veatch, Haddad, & English, 2010). In the health professions, this commitment refers to promises made between a provider and a client or patient based on an expectation of loyalty, staying with the patient in a time of need, and compliance with a code of ethics. These promises can be implied or explicit. The duty to disclose information that is potentially meaningful in making decisions is one obligation of the moral contract between provider and client or patient (Veatch et al., 2010).

Whereas respecting Fidelity requires occupational therapy personnel to meet the client's reasonable expectations, the Principle also addresses maintaining respectful collegial and organizational relationships (Purtilo & Doherty, 2011). Professional relationships are greatly influenced by the complexity of the environment in which occupational therapy personnel work. Practitioners, educators, and researchers alike must consistently balance their duties to service recipients, students, research participants, and other professionals as well as to organizations that may influence decision making and professional practice.

Related Standards of Conduct

Occupational therapy personnel shall

- A. Preserve, respect, and safeguard private information about employees, colleagues, and students unless otherwise mandated or permitted by relevant laws.
- B. Address incompetent, disruptive, unethical, illegal, or impaired practice that jeopardizes the safety or well-being of others and team effectiveness.

- C. Avoid conflicts of interest or conflicts of commitment in employment, volunteer roles, or research.
- D. Avoid using one's position (employee or volunteer) or knowledge gained from that position in such a manner as to give rise to real or perceived conflict of interest among the person, the employer, other AOTA members, or other organizations.
- E. Be diligent stewards of human, financial, and material resources of their employers, and refrain from exploiting these resources for personal gain.
- F. Refrain from verbal, physical, emotional, or sexual harassment of peers or colleagues.
- G. Refrain from communication that is derogatory, intimidating, or disrespectful and that unduly discourages others from participating in professional dialogue.
- H. Promote collaborative actions and communication as a member of interprofessional teams to facilitate quality care and safety for clients.
- I. Respect the practices, competencies, roles, and responsibilities of their own and other professions to promote a collaborative environment reflective of interprofessional teams.
- J. Use conflict resolution and internal and alternative dispute resolution resources as needed to resolve organizational and interpersonal conflicts, as well as perceived institutional ethics violations.
- K. Abide by policies, procedures, and protocols when serving or acting on behalf of a professional organization or employer to fully and accurately represent the organization's official and authorized positions.
- L. Refrain from actions that reduce the public's trust in occupational therapy.
- M. Self-identify when personal, cultural, or religious values preclude, or are anticipated to negatively affect, the professional relationship or provision of services, while adhering to organizational policies when requesting an exemption from service to an individual or group on the basis of conflict of conscience.
