CHAPTER 322. PRACTICE

§322.1. Provision of Services.

(a) Initiation of physical therapy services.

(1) Referral requirement. A physical therapist is subject to discipline from the board for providing physical therapy treatment without a referral from a qualified healthcare practitioner licensed by the appropriate licensing board, who within the scope of the professional licensure is authorized to prescribe treatment of individuals. The list of qualifying referral sources includes physicians, dentists, chiropractors, podiatrists, physician assistants, and advanced nurse practitioners.

(2) Exceptions to referral requirement.

(A) A PT may evaluate without referral.

(B) A PT may provide instructions to any person who is asymptomatic relating to the instructions being given without a referral, including instruction to promote health, wellness, and fitness.

(C) Emergency Circumstances. A PT may provide emergency medical care to a person after the sudden onset of a medical condition manifesting itself by acute symptoms of sufficient severity without referral if the absence of immediate medical attention could reasonably be expected to result in a serious threat to the patient's health, serious impairment to bodily functions, or serious dysfunction of any bodily organ or part.

(D) Prior referrals. A physical therapist may treat a patient for an injury or condition that is the subject of a prior referral if all of the following conditions are met.

(i) The physical therapist must notify the original referring healthcare personnel of the commencement of therapy by telephone within five days, or by letter postmarked within five business days;

(ii) The physical therapy provided must not be for more than 20 treatment sessions or 30 consecutive calendar days, whichever occurs first. At the conclusion of this time or treatment, the physical therapist must confer with the referring healthcare personnel before continuing treatment;

(iii) The treatment can only be provided to a client/patient who received the referral not more than one year previously; and

(iv) The physical therapist providing treatment must have been licensed for one year. The physical therapist responsible for the treatment of the patient may delegate appropriate duties to another physical therapist having less than one year of experience or to a physical therapist assistant. A physical therapist licensed for more than one year must retain responsibility for and supervision of the treatment.

(3) Methods of referral. A referral may be transmitted by a qualifying referral source in the following ways:

(A) in a written document, including faxed and emailed documents; or

(B) verbally, in person or by telephone. If a referral is transmitted verbally, whether in person or by telephone, it must be received, recorded and signed by the PT, PTA or other authorized personnel, and include all of the information that would appear on a written referral.

(b) Evaluation and screening.

(1) Evaluation. Physical therapy treatment may not be provided prior to the completion of an evaluation of the patient's condition by a PT.

(2) PTAs may screen patients designated by a PT as possible candidates for physical therapy services. Screening entails the collection of uniform information from all patients screened using a predetermined, standardized format. The information collected is delivered to the supervising PT. Only a PT may determine whether further intervention for patients screened is necessary.

(c) Physical therapy plan of care development and implementation.

(1) The PT must develop a written plan of care, based on his evaluation, for each patient.

(2) Treatment may not be provided by a PTA or aide until the plan of care has been established.

(3) The plan of care must be reviewed and updated as necessary following a reevaluation of the patient's condition.

(4) The plan of care or treatment goals may only be changed or modified by a PT.

(5) A PTA may modify treatment techniques as indicated in the plan of care.

(6) A PT or PTA must interact with the patient regarding his/her condition, progress and/or achievement of goals during each treatment session.

(d) Reevaluation.

(1) Provision of physical therapy treatment by a PTA or an aide may not continue if the PT has not performed a reevaluation:

(A) at a minimum of once every 60 days after treatment is initiated, or at a higher frequency as established by the PT; and

(B) In response to a change in the patient's medical status that affects physical therapy treatment, when a change in the physical therapy plan of care is needed, or prior to any planned discharge.

(2) A reevaluation must include:

(A) Direct physical therapist-to-patient interaction; and

(B) A review of the plan of care with appropriate continuation, revision, or termination of

treatment.

(e) Documentation of treatment.

(1) At a minimum, documentation of physical therapy services must include the following:

- (A) any referral authorizing treatment;
- (B) the initial examination and evaluation;
- (C) the plan of care;
- (D) documentation of each treatment session by the PT or PTA providing the services;
- (E) reevaluations as required by this section;
- (F) any conferences between the PT and PTA, as described in this section; and
- (G) the discharge summary.

(2) The PTA must include the name of the supervising PT in his documentation of each treatment session.

(3) Physical therapy aides may not write or sign any physical therapy documents in the permanent record. However, a physical therapy aide may enter quantitative data for tasks delegated by the supervising PT or PTA.

(4) Discharge Summary. The PT must provide final documentation for discharge of a patient, including patient response to treatment at the time of discharge and any necessary follow-up plan. A PTA may participate in the discharge summary by providing subjective and objective patient information to the supervising physical therapist.

(d) A registered facility must notify the board within thirty (30) days of any change to the name, physical/street address or mailing address. In the event of a name or physical address change, or loss or destruction of the registration certificate, the owner must obtain a new registration certificate showing the correct information by submitting a form as prescribed by the board and the fee as set by the executive council.

(e) A change in ownership or type of ownership requires a new facility registration as described in §347.8 of this chapter (relating to Change in Facility Ownership).

§347.6. Exemptions to Registration.

A facility licensed under the Health and Safety Code, Title 4, Subtitle B, is exempt from this definition, i.e., hospitals, nursing homes, ambulatory surgical centers, birthing centers, abortion, continuing care, personal care, and special care facilities. Colleges, universities, schools, home health settings, and settings where Early Childhood Intervention (ECI) services take place are exempted from registration. These types of facilities are automatically exempt and are not required to obtain a formal exemption from the board.

§347.8. Change in Facility Ownership.

(a) A facility registration cannot be transferred or sold to another person or owner. When a facility changes ownership, the new owner must register it as a new facility, and the previous owner must request in writing that the registration of the original facility be cancelled, within thirty (30) days. A change of ownership takes place when one of the following occurs:

- (1) a sole proprietor (individual) incorporates or changes to a partnership;
- (2) a partnership incorporates or changes to a sole proprietor;
- (3) a corporation dissolves and changes its status to a partnership or sole proprietor;
- (4) a sole proprietor (individual), partnership or corporation purchases, sells or transfers the ownership to another individual, partnership or corporation.

(b) If there is a change of managing partners in a partnership or managing officers in a corporation, the owner of the facility must send the board written notification on a form as prescribed by the board within (thirty) 30 days. For purposes of this subsection, managing officers are defined as the top four executive officers, including the corporate officer in charge of physical therapy facility operations. The written notification shall include the effective date of such change and the following information for the new managing partners or officers:

- (1) name and title;
- (2) home address;
- (3) date of birth; and
- (4) social security number.

§347.9. Renewal of Registration.

(a) The owner of a physical therapy facility must renew the registration annually. Licensees may not provide physical therapy services in a facility if the registration has expired. The Board will maintain a secure resource for verification of registration status and expiration date on its website. Licensees and facility owners should verify a facility's registration and expiration date on the board's website. The renewal process is not complete until the board's online facility registration verification reflects the new renewal date.

(b) Requirements to renew a facility registration are:

- (1) a renewal application signed by the owner, managing partner or officer, or a person authorized by the owner to complete the renewal;
- (2) a list of all PTs and PTAs working at the facility, including license numbers;
- (3) the non-refundable renewal fee as set by the executive council, and any late fees which may be due; and
- (4) a physical therapist in charge form.

(c) The annual renewal date of a facility registration is the last day of the month in which the registration was originally issued, or as synchronized with the first facility registered by an owner.

(d) The board will notify a facility at least thirty (30) days prior to the registration expiration date. The facility bears the responsibility for ensuring that the registration is renewed. Failure to receive notification from the board does not exempt the facility from paying the renewal fee in a timely manner.

(e) Late Renewal. Late fees will be assessed if all items required for renewal are not postmarked if submitted by mail or electronically time and date stamped if submitted online prior to the expiration date of the registration. Facility owners who do not submit all required items prior to the expiration date are subject to late fees as described below.

- (1) If the facility registration has been expired for 90 days or less, the late fee is half of the renewal fee.
- (2) If the facility registration has been expired for more than 90 days but less than one year, late fee is equal to the renewal fee.
- (3) If the facility registration has been expired for one year or more, the facility owner must restore the registration as described in §347.12 of this chapter (relating to Restoration of Registration).

(f) The current registration expiration date as displayed through the online facility registration verification on the Board's website is considered evidence of current registration.

(g) An owner may not register a new facility in lieu of renewal of an expired registration for a facility in the same location.

Facilities which fail to register as facilities with the board as required by Act and rules will be notified of their noncompliance with the Act and the disciplinary actions by this board to which they are subject. Additionally, all licensees of this Act employed at the facility will be notified that they are in violation of the Act and rules and thereby subject to disciplinary action.

(a) When a facility registration is cancelled or has expired for one year or more, the owner may restore the registration by submitting the following:

- (1) a restoration application;
- (2) a non-refundable restoration fee as set by the executive council; and
- (3) a therapist in charge form signed by the therapist in charge.

(b) Restoration fees.

- (1) If the owner cancelled the facility registration in writing, the restoration fee is the same as the renewal fee.
- (2) If the facility owner did not cancel the registration in writing and the registration expired, the fee is twice the renewal fee.

(c) An owner may not register a new facility in lieu of restoration of a previously registered facility in the same location.

§347.13. Cancellation of Registration.

(a) If physical therapy services will no longer be provided at a facility, the facility registration must be cancelled by submitting a form as prescribed by the Board no later than thirty (30) days after the expiration date of the registration.

(b) To resume the provision of physical therapy services at a future date, the facility registration may be restored with the previous expiration date by meeting the requirements in §347.12 of this chapter (relating to Restoration of Registration).

(b) The processing of complaints against applicants for registered facilities, or registered facilities, is accomplished in accordance with Chapter 343 of this title (relating to Contested Case Procedure).
