533 Executive Council of Physical Therapy & Occupational Therapy Examiners

Agency Mission and Organization

The mission of the Executive Council of Physical Therapy and Occupational Therapy Examiners (ECPTOTE) is to protect the health, safety, and welfare of the people of Texas through the regulation and enforcement of the practice of physical therapy and of occupational therapy.

ECPTOTE is an independent administrative governmental agency in which all staff employees directly support or carry out the functions of one or both boards. ECPTOTE staff is organized into three functional areas – administrative support, licensing, and investigations. The administrative staff supports the activities of the board members and other two staff groups in general, personnel, financial, and general administration and information technology services. The licensing staff responds to the needs of the physical therapy and occupational therapy licensee population they support. The investigation staff receives and investigates all complaints against the boards' licensees and works closely with the investigation committees of the two boards.

Major Concerns

- ECPTOTE is charged with protecting public health and safety by licensing qualified practitioners of physical therapy and occupational therapy, and registering facilities in which those services are provided. In the coming biennium, the agency faces the same three major challenges it has had since coming into existence in 1993: The most significant concerns are the continued shortage of physical and occupational therapy services in under-served areas within Texas, and state and federal legislation which may impose limits on reimbursement for therapy services. The first concern is not as great as in previous years as the overall number of therapists has generally met the demand, many from out of state. The challenge faced by the two boards is to find the balance between quality and quantity of therapy services, keeping in mind the primary goal of protecting the health and safety of the public, and the availability of funding for those services.
- The greatest challenge to ECPTOTE is to insure that the state's decision-makers are aware of the direct link between timely and quality services and the operational resources they provide the agency. The agency has sustained several severe financial setbacks in the past few bienniums, which was alleviated by an increase in funding in the FY2016/17 biennium. Coupled to a continuous annual increase in workload, despite this increase, the provided funds have placed a constraint on the agency's ability to perform its mission since then and in the near future. The proposed 4% budget cut for the upcoming biennium only exacerbates the situation.
- The Executive Council, the Physical Therapy Board and the Occupational Therapy Board are now under Sunset Review which will be concluded with the adjournment of the 85th Legislature. This is the first Sunset review of these three entities since 1993. There are many outdated provisions in their practice acts. There were forty-five major issues requiring changes to the practice acts addressed to the Sunset Advisory Commission in the agency Self Evaluation Report - five by the Executive Council, and 20 each by the PT board and OT board. Some of these recommended changes were housekeeping, but the majority of them addressed major impediments to the agency effectively accomplishing its mission. To avoid a bloated (and redundant) administrator's statement, these 45 recommended changes to the practice acts are not listed here, but are detailed in the agency Sunset Self Evaluation Report. Many of these recommendations have financial impacts, but as of the submission date of the LAR, the Sunset Commission has still not met to make their final decision. The outcome of their recommendations will not be known until the end of the FY2017 legislative session.
- Two future funding items of concern are the forced replacement of the existing phone system with a VOIP system. Cost of this system replacement to the agency is unknown, but apparently DIR is going to shut down the existing phone system during the upcoming biennium. Another IT related concern is that the Health Professions Council Document Imaging System, in which the agency participates, will be upgraded during the next biennium at a significant cost. The agency, which participates in the Imaging System, has submitted its pro-rata share of the cost.

533 Executive Council of Physical Therapy & Occupational Therapy Examiners

- As a statement we insert in this section every biennium, the agency's current performance of licensing and investigation functions continues to meet or exceed the pre-merger levels of the separate boards in all areas. Each year the licensee performance measures far exceed those during the first year of the Executive Council's existence. We are also conducting investigations more efficiently and resolving them quickly, with the number of disciplinary actions taken by the boards increasing each year

Fiscal Aspects Affecting the Budget

- The Executive Council's appropriations are used solely to support the functions of the Physical Therapy and the Occupational Therapy Boards. All funds for ECPTOTE come from the General Revenue Fund, and to a lesser extent, from appropriated receipts, specifically the sales of goods and services (mailing lists) and a renewal assessment to pay for mass emails. ECPTOTE receives no federal funding, and collects licensing and registration fees on behalf of the Physical Therapy Board and the Occupational Therapy Board. All fees are deposited to General Revenue. ECPTOTE is required to collect a pre-designated part of its funding, \$56,000 per year, of which it will collect about \$50,000 in FY2016. These appropriated receipts are generated through sales of mailing lists and labels; our success or lack of used to be linked to the health of the economy, but is now tied to other forces such as social media, increased use of the internet, and other technology driven options. Renewal assessments for email notifications began in January 2016, so the agency does not have a good handle of annual receipts, although it does plan to allow excess appropriated receipts lapse at the end of the fiscal year.

- Four Percent Reduction: ECPTOTE will continue to perform its mission of protecting the public despite a 4 percent budget cut. It has done so in the past despite budget cuts of even greater amounts, but there have been consequences, such as personnel losses, worsening results in both licensing and enforcement performance measures, and lost opportunities to better serve the public and licensees. Depending on budgeted expenses, which only rise every year, the agency and two boards may go back to 3 vs. 4 board meetings annually.

Economic Aspects Affecting the Budget

- Insufficient funding has had the greatest negative impact on the ability of ECPTOTE to adequately support its mission. Other economic variables affecting the agency through their impacts on its licensees and registered facilities include rising health-care costs, the uncertainty about the future of Medicare/Medicaid and their reimbursement, national health care initiatives, the change in priorities of state spending and fund allocation, and the increase in the need for state services.

- The demand for physical therapy and occupational therapy services in Texas will continue to grow at the same rate as in the past. If the agency continues to receive the same amount of funding to support its licensing and enforcement missions as it has in the past, then services will suffer despite efficiencies developed in agency processes and procedures over the past years.

Other Issues Impacting the Appropriations Request

- Historically, both the Physical Therapy Board and Occupational Therapy Board have deposited to General Revenue far more than was expended by the boards for their operations. While the fee schedule has had only a few modest increases since 1993, the large jump in revenue from then until today can be attributed to the registration of facilities, a steady increase in the number of new licensees starting to work and continuing to work in Texas, and an over assessment of fees to fund contingent revenue requirements.

- Based on prior years' experience, the Executive Council anticipates that for the next biennium, each service population group (PTs and OTs) will increase by a total of

533 Executive Council of Physical Therapy & Occupational Therapy Examiners

1,500 to 2,000 annually, and the number of registered facilities will increase by about a hundred per year. We also expect to receive and process slightly larger number of inquiries and complaints due to our emphasis in information availability through alternate means, the stable service population, and an increasing public awareness of enforcement. With a relatively small adjustment to the current budget level, the Executive Council should be able to adequately provide the protection and services required by its mission. The extra funds required would be easily covered by the overall increase of revenue that accrues to the state due to increase in licensees. However, any state or federal legislation which places additional demands on our licensing functions, or disciplinary procedures which require funding to implement, or a sudden upsurge in disciplinary activity or major budgetary cut late in the fiscal year will have an adverse impact on the functioning of the agency. There is never any slack built into the agency budget that is submitted each biennium.

- The Executive Council is requesting additional funding in the 2018-2019 biennium budget cycle for the following Exceptional Items in priority order:
 - Full baseline budget to cover basic operations (i.e., restore the 4% budget reduction);
 - Replace the current DIR supported phone system with a Voice-Over-Internet-Phone (VOIP) system due to shutdown of the current phone system by DIR;
 - Implement CAPPs system in FY2019;
 - Funding to replace one of the two agency servers that will be out of warranty in the upcoming biennium, and to avoid a repeat of an agency server crash in early CY2014 that took down the licensing database for a week;
 - Salary increases for key employees. An approximate overall 4% increase in salaries to cover classified employee merit raises. This is an absolute necessary for retaining quality employees, and avoiding all the costs of constantly hiring and training new employees. This was requested as an Exceptional Item in 2016, and was approved, but it was the first pay raise for many deserving employees since FY2009. It was not sufficient to counteract the hemorrhaging of quality employees to other agencies for more money. ECPTOTE is forced to compete with the larger Article 8 agencies in the Hobby Building with their much higher paying positions, and is now losing more clerks after spending the time and effort to train them and retain them by providing a good work environment. Eventually, without an occasional raise to reward hard work and loyalty, these good employees finally are forced to move for a higher salary. This Exceptional Item request is not for an across the agency pay raise, but will be targeted at those positions the agency can least afford to lose. Basically, the agency will try to bring its key administrative and clerk positions' salary up so it is comparable to all similar Article 8 agencies. In a related note, the 84th Legislature authorized a pay increase of the Executive Director but only funded \$3,485/yr. vs. the original request of \$9,586/yr. and an authorization increase of \$13,938/yr. Part of this request is to fund the first pay raise given to the Executive Director since 2009;
 - Funding for Lump Sum Termination pay for two retiring employees in each fiscal year. Four employees have indicated they plan to retire in FY2018 and FY2019. This amount represents the amount of annual leave that has accrued and must be paid upon termination of employment. It was computed at an average of three months accrued leave times each employee's monthly salary;
 - Funding for improving the work environment; e.g., painting the walls on the administrative offices of the agency for the first time since sometime before 1995; reworking office space to reflect new working conditions, etc.
 - An increase in travel and per diem funds to keep up with the increase in reimbursement rates, now that it is tied to the higher (in some cases, much higher) Federal rates. The requested amount is the delta between the pre and post Federal rate implantation;
 - Replacement of the office furniture items that are reaching the end of their useful lives (one time cost). The newest office furniture is as old as ECPTOTE, and the rest is even older. This is to specifically replace the Executive Director's chair and desk;
 - Restore the \$15,612 per year the agency is directed to help pay for employee health care and retirement.

10% Budget Reduction

Prior to preparing the Legislative Appropriation Requests for the FY 2016/17 biennium, preparation guidance was provided agencies by the Legislative Budget Board and Governor's Office. Specifically, ECPTOTE, as well as other state agencies, had to submit a baseline request limited to its 2012-13 appropriations, which

533 Executive Council of Physical Therapy & Occupational Therapy Examiners

incorporates the prior biennium budget cuts. This is mentioned, because there is a similar requirement for the FY2018-19 biennium, and the expected impact on the agency remains the same. Since ECPTOTE has had many similar cuts in past budget, it has a pretty good idea on just what the impacts will be if this 10% cut is imposed. It also has noticed that there are always budget cuts in addition to those initially stated, so the plan below incorporates those unexpected cuts also. Initial rough calculations show that a 10% budget cut would translate to about \$130,800 per year. If the agency does suffer a 10% budget cut in the next biennium, it will have these impacts (similar to last biennium's estimates):

The impact to the agency will necessitate eliminating the following basic operational requirements:

- Funding for three FTEs @ \$105,000 (licensing clerks)
- Longevity pay for FTE @ \$5,100
- Board member per Diem @ 2,500
- Employee Assistance Program and other contracts @ \$1,832
- Database programming/maintenance and web page support @ \$2,500
- Consumable supplies @ \$1,200
- Emergency repairs @ \$1,671
- Investigator and board member travel @ 11,000

As a minimum, and based on past experience, the impact to the State of Texas will result in an expected drop in current performance measure statistics of:

- Average licensing cost per individual license
 - Average cost per facility registration issued
 - Percentage of new licenses issued within 10 days
 - Percentage of license renewals issued within 7 days
 - Average time for license issuance
 - Average time for license renewal
- Plus performance measures that have been improving every year, but will now worsen:
- Number of complaints resolved
 - Average time for complaint resolution

Other actions the agency will be forced to take include:

- Continuing to not award employee merit raises, and substitute administrative leave instead for recognizing exceptional performance.
- Return to only two or three board/council meetings per year; basically returning to a situation that existed for several years prior to this biennium.
- Halt any maintenance updates of the agency website such as the licensing verification database, forcing customers to use other forms of communication to obtain services / information (only make changes that cost little or nothing).
- Cut all travel except board member travel and absolutely essential investigator travel.
- Cancel all planned and future training/seminar attendance by employees and board members.
- Cancel school presentation programs by board coordinators and investigators unless totally paid for by the school.
- Cancel current printing contracts. Reevaluated future needs and move all board forms to the web site.
- Keep austere control over supplies.

533 Executive Council of Physical Therapy & Occupational Therapy Examiners

- Defer all purchases of computer equipment except emergency repair items.
- Repair nothing in the agency, except safety related emergency repairs.
- Cancel service contracts such as document shredding, moving of office furniture, EAP program, etc.

Other expected intangible impacts:

- More efficient, but initially costly, improvements to agency processes delayed or cancelled resulting in inability to take advantage of technology multipliers.
- Suffer continued decline in morale of employees due to layoffs of two or more personnel, permanent elimination of all financial incentives, training opportunities, and allowing workspace environment to degenerate. This will also result in extremely deteriorated service to licensees, the public, and anyone else who interacts with the agency.
- Board visibility with supported population will continue to drop due to travel cutbacks and elimination of exposure to school programs and association meetings.
- Board actions on proposed rules, rulings, and decisions will be delayed by at least an additional two months each quarter.
- Enforcement performance measures seriously degraded due to investigation committee meeting cancellations and rescheduling every four months vs. three, and cutback of on-site investigations.
- Will experience large increase in quantity of unsatisfactory phone communications by staff due to length of time to respond and the unavailability of current information formerly mailed out or on web site.
- Will halt programs that formerly increased licensee awareness of rules and practice acts and will gradually increase number of disciplinary cases.

Cost areas in which ECPTOTE would make "last resort" cuts include laying off additional personnel, communications services, halt more direct services for licensees and the public, on-going IT activities to include database support, and all expenditures required by law. There will also be an even greater negative impact on performance measures than outlined above.

Background Checks

The Executive Council does not have statutory authority to conduct background checks on its licensees, and does not perform FBI criminal background checks on new applicants. Potential licensees are asked for information on any crime (including misdemeanors) on the PT and OT application forms. The only excluded history is Class C traffic violations and single minor-in-possession convictions. The agency conducts a formal investigation on all of these cases, and they are completed prior to completion of the licensing process. The current licensing process has proven effective in identifying those who have a criminal conviction since 1989. The recent Sunset Commission recommended that the Physical Therapy and Occupational Therapy Boards begin fingerprinting and background checks on its licensees.

Health Professions Council

The Executive Council is a member of the Health Professions Council. The agency transfers funds through interagency contract (GAA Article VIII Special Provisions) to the HPC for our prorated share of HPC's operating budget. Please refer to the HPC LAR for an Exceptional Item funding request necessary for Information Technology improvements, as well as any other prorated increases to the Executive Council. The Executive Council fully supports the HPC request assuming additional appropriations are made to the Executive Council for any increases.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Executive Council of Physical Therapy and Occupational Therapy Examiners is an independent state health regulatory agency. The 73rd Legislature, Regular Session, created the Executive Council in 1993 to administer and enforce the Physical Therapy Practice Act and the Occupational Therapy Practice Act. This legislation merged the administrative functions of the Texas Board of Physical Therapy Examiners and the Texas Advisory Board of Occupational Therapy under the Executive Council, while keeping the rule and decision-making of the two boards intact.

The two boards are tasked by their governing statutes to regulate the occupations of physical therapists (PT), physical therapist assistants (PTA), occupational therapists (OT) and occupational therapist assistants (OTA) through licensing and enforcement. Additionally, the boards are tasked to register facilities which provide physical therapy and occupational therapy services.

This strategy will allow the agency to assist in the fulfillment of the statewide priority goal of ensuring that communities are served by high quality professionals and businesses, by setting clear standards, maintaining compliance, and seeking market-based solutions. The licensing, examination, continuing education, and public information functions of this agency ensures the competency of the professionals providing physical therapy and occupational therapy services to the public.

CODE	DESCRIPTION	Exp 2015	Est 2016	Bud 2017	BL 2018	BL 2019
------	-------------	----------	----------	----------	---------	---------

In recent years there has been a substantial increase in the demand for physical therapy and occupational therapy services across the nation as well as in Texas, matching the general trend for all health services. This is reflected in the therapist population size. In the last six years though, this growth has slowed down to a steady 3-4% per year increase.

Rising health-care costs, the uncertainty about the future of Medicare/Medicaid reimbursement, and the increase in state requirements and services are the primary economic variables that affect the agency through its impact on the public and therefore its licensees.

By all estimates, the demand for physical therapy and occupational therapy services will continue to increase at the previous rate over the short-term in Texas. The agency can implement this strategy with the original baseline budget, but will have difficulties with a reduced budget, i.e., a 4% reduced budget.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Executive Council of Physical Therapy and Occupational Therapy Examiners is an independent state health regulatory agency. The Executive Council was created in 1993 to administer and enforce the Physical Therapy Practice Act and the Occupational Therapy Practice Act. The two boards are tasked by their governing statutes to regulate the occupations of physical therapists (PT), physical therapist assistants (PTA), occupational therapists (OT), and occupational therapist assistants (OTA) through licensing and enforcement. Additionally, the boards are tasked to register facilities which provide physical therapy and occupational therapy services. The Texas Board of Physical Therapy Examiners' enabling statute is the Texas Physical Therapy Practice Act, Article 4512e, V.T.C.S.. The Texas Board of Occupational Therapy Examiners' enabling statute is the Occupational Therapy Practice Act, Article 8851, V.T.C.S.. This strategy will allow the agency to assist in the fulfillment of the statewide priority goal of ensuring that communities are served by high quality professionals and businesses by maintaining compliance. This strategy allows the agency to enforce the practice acts and rules of the Physical Therapy and Occupational Therapy Boards by monitoring the practice of physical therapy and occupational therapy, investigating complaints, and disciplining licensees who violate the practice acts or rules, thereby deterring other violations and safeguarding the public from unqualified practitioners.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The agency can implement this strategy with the original baseline budget, but will have difficulties with a reduced budget, e.g., a 4% reduced budget.

TOTAL, METHOD OF FINANCING		\$54,500	\$54,500

DESCRIPTION / JUSTIFICATION:

This reduction equates to \$54,500 per year for FY2018 & FY2019. ECPTOTE will continue to perform its mission of protecting the public despite this 4 percent budget cut. It has done so in the past in spite of budget cuts of even greater amounts, but there have been consequences, for example, personnel losses, worsening results in both licensing and enforcement performance measures, and lost opportunities to better serve the public and licensees. Depending on other budgeted expenses, which only rise every year, the agency and two boards will probably as a minimum go back to 3 vs. 4 board meetings annually.

EXTERNAL/INTERNAL FACTORS:

While inadequate funding has the greatest negative impact on the ability of ECPTOTE to adequately support its mission, other economic variables affecting the agency through their impact to licensees & registered facilities to include rising health-care costs, the uncertainty about the future of Medicare/Medicaid and their reimbursement, national health care initiatives, the change of state spending & fund allocation, and the increase in the need for state services. All of these outside factors could exacerbate the immediate impact of the 4% budget reduction.

DESCRIPTION / JUSTIFICATION:

Replacement of the current DIR supported phone system with a Voice-Over-Internet-Phone (VOIP) system due to shutdown of the current phone system by DIR in the indeterminate future. It is expected to occur by FY2018. This includes a network switch, monthly hardware costs, two fax lines, and server in support of voice mail.

EXTERNAL/INTERNAL FACTORS:

DIR is requiring a switch to a VOIP phone system, as at an indeterminate time in the upcoming biennium, it will no longer support the current phone system.

The Executive Council was notified by the Comptroller that CAPPs HR/Payroll would be implemented in the agency starting in 9/1/18; with deployment scheduled by 7/2019. The requested funds are the amount calculated by the agency database administrator to make the necessary changes to the agency database to integrate the CAPPs system.

EXTERNAL/INTERNAL FACTORS:

Implementation of the CAPPs system by the agency is not an option.

1	General Revenue Fund	37,839	37,839
	TOTAL, METHOD OF FINANCING	37,839	37,839

DESCRIPTION / JUSTIFICATION:

Salary increases for key employees. An approximate overall 4% increase in salaries to cover classified employee merit raises. This is an absolute necessary for retaining quality employees, and avoiding all the costs of constantly hiring and training new employees. This was requested as an Exceptional Item in 2016, and was approved, but it was the first pay raise for many deserving employees since FY2009. It was not sufficient to counteract the hemorrhaging of quality employees to other agencies for more money. ECPTOTE is forced to compete with the larger Article 8 agencies in the Hobby Building with their much higher paying positions, and is now losing more clerks after spending the time and effort to train them and retain them by providing a good work environment. Eventually, without an occasional raise to reward hard work and loyalty, these good employees finally are forced to move for a higher salary. This Exceptional Item request is not for an across the agency pay raise, but will be targeted at those positions the agency can least afford to lose. Basically, the agency will try to bring its key administrative and clerk positions' salary up so it is comparable to all similar Article 8 agencies. In a related note, the 84th Legislature authorized a pay increase of the Executive Director but only funded \$3,485/yr. vs. the original request of \$9,586/yr. and an authorization increase of \$13,938/yr. Part of this request is to fund the first pay raise given to the Executive Director since 2009.

EXTERNAL/INTERNAL FACTORS:

With the current economy, it is becoming more difficult to retain and hire quality employees. Having the ability to award merit raises to deserving employees is crucial significantly aids the agency to retain them.

DESCRIPTION / JUSTIFICATION:

The request is for funding to replace one of the two agency servers that will be out of warranty in the upcoming biennium and that is beyond the four to five year replacement period as recommended by DIR. We are trying to avoid a repeat of an agency server crash in early CY2014 that took down the licensing database for a week.

EXTERNAL/INTERNAL FACTORS:

This action is based on DIR and HPC IT techs recommendation for server replacement.

DESCRIPTION / JUSTIFICATION:

Along with seven other health agencies, the Executive Council actively participates in the HPC document imaging system. The HPC will be requesting funds to migrate to a significantly better Laserfiche system called RIO. The Executive Council would continue to digitize its records and the newer system would be a significant improvement to agency operations. The HPC is requesting this system as an exceptional item, and the Executive Council's share of the purchase is \$7,096 in FY2018 and \$1,731 in FY2019.

EXTERNAL/INTERNAL FACTORS:

The agency is currently integrating the files stored on the HPC document imaging system into its new database currently under development.

 METHOD OF FINANCING:			
1	General Revenue Fund	21,240	44,210
	TOTAL, METHOD OF FINANCING	\$21,240	\$44,210

DESCRIPTION / JUSTIFICATION:

Four employees have indicated that they will retire in FY2018 and FY2019 (two in each year). This amount represents the amount of annual leave they will probably have accrued by their retirement date based on their current leave balance, and must be paid by the agency in a lump sum when they terminate employment. There are two employees in each fiscal year.

EXTERNAL/INTERNAL FACTORS:

The lump sum annual leave payment is based on the employees' accrued leave on the date of retirement. In the past employees had to choose between taking their remaining leave in a lump sum or applying it to their time in service calculations. Now there is no option; they receive both. The lump sum payment is expensed from agency funds and not from ERS. The agency has had to make one of these payments for the last three fiscal years. The most recent payment to a retired agency employee was \$17,000.

TOTAL, METHOD OF FINANCING		\$16,400	\$16,400

DESCRIPTION / JUSTIFICATION:

An increase in travel funds is needed to keep pace with the increase in reimbursement rates, which is tied to the higher (in some cases much higher) Federal rates. Current lodging reimbursement rates for the Austin area alone have increased 84% since FY 2012. The three-person investigation staff receives and investigates all complaints against the boards' licensees, and works closely with the investigation committees of the two boards each consisting of nine members. The Physical Therapy Board has 78% of its members and 67% of the members of its investigation committee members reside out of town. The Occupational Therapy Board has 67% of its members and 33% of the members of its investigation committee members reside out of town. The Executive Council has 60% of its members reside out of town. Funding of additional travel funds of \$16,400 in FY 2018 and \$16,400 in FY 2019 is requested to ensure that Texas consumers are served effectively and efficiently. This was requested but not funded in the FY2016/2017 Legislative Appropriations Request.

EXTERNAL/INTERNAL FACTORS:

Travel costs continue to rise every year especially since the rates were removed from the Appropriation Acts to the federal travel rates. Travel is a necessary expense as it is absolutely necessary for the support of the boards' efforts to protect the public.

DESCRIPTION / JUSTIFICATION:

This funding is requested to improve the work environment; e.g. painting the walls on the administrative office side of the agency for the first time since before 1995. The walls in the licensing side of the agency were painted in FY2016, and the carpets on both sides were replaced in the last five years. Funding of \$16,000 in FY 2018 would be needed to complete the project.

EXTERNAL/INTERNAL FACTORS:

The agency is required to pay for any working environment maintenance and improvements.

DESCRIPTION / JUSTIFICATION:

Replacement of various office furniture that is reaching the end or have reached their useful lives is needed. Funding of \$2,500 for each fiscal is requested. The newest office furniture is as old as ECPTOTE, and the rest is even older. The furniture in the worst condition was covered by an Exceptional Item request in the FY 2015 Appropriations Act. This is for equipment not repaired/replaced, and replacement of the executive director's chair and desk, both 25+ years old.

TOTAL, METHOD OF FINANCING		15,612	15,612

DESCRIPTION / JUSTIFICATION:

Funding of \$15,612 in FY 2018 and \$15,612 in FY 2019 is requested to restore the agency's funds that it is directed to help pay the employee health care and retirement. These funds for this expense come directly from the agency's regular appropriations with no reimbursement and no means to offset. The agency does not have the funds to continue to accept this cut to its appropriations. The necessary funds only continue to grow as employee salaries also increase. In the last biennium the agency contributions were \$13,400/year.

EXTERNAL/INTERNAL FACTORS:

It is expected that this ever increasing contribution to the Employee Retirement System and Employee health system will continue as most unfunded mandates are prone to do, which will cause the agency to cut critical services.

This was requested as an exceptional item, but not funded in the FY2016/2017 Legislative Appropriations Request.

	Total Expenditures		16.7%		\$12,400	\$74,148		31.6%		\$5,245	\$16,615	

B. Assessment of Fiscal Year 2014 - 2015 Efforts to Meet HUB Procurement Goals

Attainment:

The agency attained or exceeded one of two, or 100% of the applicable statewide HUB procurement goals in FY 2014 and 2015. The "Commodities" goal not only exceeded the agency's goal but the statewide HUB goal.

Applicability:

The "Heavy Construction", "Building Construction", "Special Trade Construction", and "Professional Services" categories are not applicable to agency operations in either FY 2014 or 2015 since the agency did not have any strategies or programs related to construction.

Factors Affecting Attainment:

The agency met and well exceeded the goal of "Commodities" in FY 2014 and 2015. The agency contracts with and utilizes HUB vendors when available.

"Good-Faith" Efforts:

- The agency made the following "good-faith" efforts to comply with the statewide HUB procurement procedures as stated by 34 TAC, § 20.13(d):
- .ensured that contract specifications, terms, and conditions reflected the agency's actual requirements, were clearly stated, and did not impose unreasonable or unnecessary contract requirements.
 - .provided potential bidders with a list of certified HUBs for subcontracting, and
 - .prepared and distributed information on procurement procedures in a manner that encouraged participation in agency contracts by all businesses.

8 Investigator & Board Member Travel

Category: Administrative - Travel

Item Comment: A 10% budget reduction will force the agency to cancel two sets of board and committee meetings per year (PT, OT, and Executive Council) reducing the number of each from four to two. All travel will be cut except for absolutely essential investigator travel, and cancel school presentation programs by board coordinators and investigators unless totally funded by the schools. Board actions on proposed rules, rulings and decisions will be delayed by an additional three months. Enforcement performance measures will seriously be degraded due to investigation committee meeting cancellations and rescheduling every six months vs three, and major cutback on on-site investigations.

Agency: 533 EXECUTIVE COUNCIL OF PHYSICAL THERAPY & OCCUPATIONAL THERAPY EXAMINERS

- Goal:** **1 License Physical and Occupational Therapists and Register Facilities**
Objective: **1 Ensure License and Registration Standards for PTs, OTs and Facilities**
Strategy: **1 Issue and Renew Licenses and Register Facilities**

General Justification

The Executive Council of Physical Therapy and Occupational Therapy Examiners is an independent state health regulatory agency. The 73rd Legislature, Regular Session, created the Executive Council in 1993 to administer and enforce the Physical Therapy Practice Act and the Occupational Therapy Practice Act. This legislation merged the administrative functions of the Texas Board of Physical Therapy Examiners and the Texas Advisory Board of Occupational Therapy under the Executive Council, while keeping the rule and decision-making of the two boards intact.

The two boards are tasked by their governing statutes to regulate the occupations of physical therapists (PT), physical therapist assistants (PTA), occupational therapists (OT) and occupational therapist assistants (OTA) through licensing and enforcement. Additionally, the boards are tasked to register facilities which provide physical therapy and occupational therapy services.

This strategy will allow the agency to assist in the fulfillment of the statewide priority goal of ensuring that communities are served by high quality professionals and businesses, by setting clear standards, maintaining compliance, and seeking market-based solutions. The licensing, examination, continuing education, and public information functions of this agency ensures the competency of the professionals providing physical therapy and occupational therapy services to the public.

- Goal:** **1 License Physical and Occupational Therapists and Register Facilities**
Objective: **1 Ensure License and Registration Standards for PTs, OTs and Facilities**
Strategy: **2 Texas.gov. Estimated and Nontransferable**

General Justification

In accordance with Government Code, Section 2054.252, Texas OnLine Project, the Executive Council of Physical Therapy and Occupational Therapy Examiners is required to participate in a licensee online renewal and application system. All licensees will pay a renewal and/or application subscription fee, collected and managed by the Comptroller, on behalf of NICUSA/Texas OnLine Authority, the ultimate recipient of the fees. Fees are collected by the agency. Monthly the agency makes a payment to NICUSA for the previous month's fees.

85R Stage: S01 Version: 1

Agency: 533 EXECUTIVE COUNCIL OF PHYSICAL THERAPY & OCCUPATIONAL THERAPY EXAMINERS

- Goal:** **2 Promote Compliance and Enforce PT and OT Practice Acts and Rules**
- Objective:** **1 Enforce and Adjudicate PT and OT Practice Acts**
- Strategy:** **1 Enforce the Physical Therapy and Occupational Therapy Practice Acts**

General Justification

The Executive Council of Physical Therapy and Occupational Therapy Examiners is an independent state health regulatory agency. The Executive Council was created in 1993 to administer and enforce the Physical Therapy Practice Act and the Occupational Therapy Practice Act.

The two boards are tasked by their governing statutes to regulate the occupations of physical therapists (PT), physical therapist assistants (PTA), occupational therapists (OT), and occupational therapist assistants (OTA) through licensing and enforcement. Additionally, the boards are tasked to register facilities which provide physical therapy and occupational therapy services. The Texas Board of Physical Therapy Examiners' enabling statute is the Texas Physical Therapy Practice Act, Article 4512e, V.T.C.S.. The Texas Board of Occupational Therapy Examiners' enabling statute is the Occupational Therapy Practice Act, Article 8851, V.T.C.S..

This strategy will allow the agency to assist in the fulfillment of the statewide priority goal of ensuring that communities are served by high quality professionals and businesses by maintaining compliance. This strategy allows the agency to enforce the practice acts and rules of the Physical Therapy and Occupational Therapy Boards by monitoring the practice of physical therapy and occupational therapy, investigating complaints, and disciplining licensees who violate the practice acts or rules, thereby deterring other violations and safeguarding the public from unqualified practitioners.

Agency: 533 EXECUTIVE COUNCIL OF PHYSICAL THERAPY & OCCUPATIONAL THERAPY EXAMINERS

Goal: **3 Indirect Administration**
Objective: **1 Indirect Administration**
Strategy: **1 Licensing Indirect Administration**

General Justification

In general, indirect administrative and support costs are prorated on the basis of a percentage of the individual strategy to the actual budget total for each fiscal year. The percentage that applies to strategy 1, goal 3 is 3% for FY 2015 - FY 2019. This calculation method was selected based on the one function only the agency operates, regulates, and the administrative demands are closely related to the budget size.

Goal: **3 Indirect Administration**
Objective: **1 Indirect Administration**
Strategy: **2 Enforcement Indirect Administration**

General Justification

In general, indirect administrative and support costs are prorated on the basis of a percentage of the individual strategy to the actual budget total for each fiscal year. The percentage that applies to strategy 1, goal 3 is 2% for FY 2015 - FY2019. This calculation method was selected based on the one function only the agency operates, regulates, and the administrative demands are closely related to the budget size.

Agency code: 533

Agency name: Executive Council of Physical Therapy & Occupational Therapy Examiners

Goal: 1 License Physical and Occupational Therapists and Register Facilities

Objective: 1 Ensure License and Registration Standards for PTs, OTs and Facilities

Strategy: 1 Issue and Renew Licenses and Register Facilities

External/Internal Factors:

In recent years there has been a substantial increase in the demand for physical therapy and occupational therapy services across the nation as well as in Texas, matching the general trend for all health services. This is reflected in the therapist population size. In the last six years though, this growth has slowed down to a steady 3-4% per year increase. Rising health-care costs, the uncertainty about the future of Medicare/Medicaid reimbursement, and the increase in state requirements and services are the primary economic variables that affect the agency through its impact on the public and therefore its licensees.

By all estimates, the demand for physical therapy and occupational therapy services will continue to increase at the previous rate over the short-term in Texas. The agency can implement this strategy with the original baseline budget, but will have difficulties with a reduced budget, i.e., a 4% reduced budget.

Goal: 1 License Physical and Occupational Therapists and Register Facilities

Objective: 1 Ensure License and Registration Standards for PTs, OTs and Facilities

External/Internal Factors:

Goal: 2 Promote Compliance and Enforce PT and OT Practice Acts and Rules

Objective: 1 Enforce and Adjudicate PT and OT Practice Acts

Strategy: 1 Enforce the Physical Therapy and Occupational Therapy Practice Acts
