ECPTOTE ACCESSIBILITY POLICY

The Executive Council of Physical Therapy and Occupational Therapy Examiners (ECPTOTE) is committed to making its Web site accessible to all users. To make the site more accessible, ECPTOTE includes several features designed to improve accessibility for users with disabilities, including a descriptive text equivalent for images and other non-text elements which aids users who listen to the content of the site by using a screen reader. The website is designed for low bandwidth connections, with limited graphics and animated menus.

ECPTOTE welcomes comments on how to improve the site's accessibility for users with disabilities. If you use assistive technology and the format of any material on our Web site interferes with your ability to access the information, please contact the Disability Coordinator, Angie Beruman at 512.305.8550.

Additional information about accessibility programs in Texas is available from the Governor's Committee on People with Disabilities.

ECPTOTE PRIVACY POLICY

The Executive Council of Physical Therapy and Occupational Therapy Examiners (ECPTOTE) maintains this web site as a public service. The following is the privacy policy for this site (all pages starting with www.ecptote.state.tx.us). Please note that the privacy policy for state agencies and other entities linked to this site may be different. The privacy policies of Texas On-Line are described on that website, including policies that relate to on-line renewal of licenses, including credit card and other information obtained through that process.

Information Collected and Stored Automatically

This website does not use cookies to collect information. A cookie file contains unique information a website can use to track such things as passwords, lists of pages you've visited, and the date when you last looked at a specific page or to identify your session at a particular website. A cookie is often used in commercial sites to identify the items selected for a specific shopping cart application.

Security, Intrusion, Detection Language

For site security purposes and to ensure that this service remains available to all users, this government computer system may be required to employ software programs to monitor network traffic to identify unauthorized attempts to upload or change information, or otherwise cause damage. Should this be the case, except for authorized law enforcement investigations, no other attempts will be made to identify individual users or their usage habits. Raw data logs would be used for no other purposes and would be scheduled for regular destruction in accordance with the Texas State Library and Archives Commission.

Unauthorized attempts to upload information or change information on this service are strictly prohibited and may be punishable under the Texas Penal Code Chapters 33 (Computer Crimes) or 33A (Telecommunications Crimes).

E-mail

Information sent to ECPTOTE through an e-mail may be maintained by the Agency and used by the Agency to respond to the e-mail. An e-mail may be forwarded to another agency or entity that has the resources to provide a complete response. Information contained in an e-mail is probably public information. If so, the document must be released if a public information request is made, unless a legal exception applies.
